# AMITHA  SANDARUWAN

## SOFTWARE ENGINEER

I am an graduate in Bachelor of Science in Computer Science degree of Eastern University. My career goal as a Software engineer is to continuously enhance my technical skills and knowledge, while also collaborating with forwardthinking teams to develop innovative software solutions that make a positive impact on society. I strive to take on challenging projects where I can add value and grow as a professional, ultimately becoming a respected leader in the field of software engineering.

## PROJECTS
